

# Freeing you from the burden of legacy IT systems and empowering you to harness the full potential of Azure.

**Supporting your journey** to the cloud from initial planning, to migration, to managing and maintaining an **optimal run state.**

**Plan**

CloudLift is our cloud readiness methodology.

We begin with an IT portfolio-centric model of your infrastructure and present multiple maturity and optimisation options for your consideration.

**Migrate**

Our team of experts can get you to Azure in record time.

Our experience lets us predict potential migration challenges so that we can manage risk, avoid unscheduled down-time and limit unnecessary disruption through the migration process.

**Run**

Managed Azure helps you get the most out of Azure.

As a leading MSP, we've built our 'Run' program to include unlimited, non-hours-based support, governance-as-a-service, and ongoing technical leadership and guidance.

## Why Partner with Codify?

### Direct Access to Senior Leadership

Our boutique size means that Codify Directors are readily available, invest in understanding your needs, and take personal ownership of your outcomes.

### Focused Specialisation

We're so focused on Azure we don't even know how to spell AWS. Our unique, singular focus on Azure drives deep expertise with the platform that supports your cloud results.

### Governance-as-a-Service

We always have your back with algorithmic cost control, automatic policing of new Azure resources, and continual optimisation of your environment.

### Cost Offsets

As a Microsoft Partner, Codify can access funding programs that may be available to cover some or all of your cloud transition costs.
